

**MOBY DICK**

## **WHAT IS MOBY DICK?**

Moby Dick's main goal is to create and develop Pequod a platform that will simplify the world of cryptocurrencies and blockchains, working as a centralizer and enhancer of services.

You can already buy, check the price and watch your current Moby Dick balance on BSC using PancakeSwap and Poocoin

The Pequod platform will collect the best opportunities such as stakings and secure crypto currency to buy, all in one place Pequod is not a simple Defi Exchange like PancakeSwap.

Pequod includes lots of new features that will simplify and improve your trades such as Stop Loss and Take Profits function.

## OUR GOALS

The world of cryptocurrencies and blockchain is booming. One of the most active Blockchains at the moment is the Binance Smart Chain, where different services, such as Binance, Crypto.com, BiFi, Pancakeswap, give users multiple possibilities.

These services and possibilities, however, are very complicated and have a very high learning curve. Moreover, to deal with them it is necessary to use various systems and applications, which each has its own set of challenges.

In a nutshell, to interact with the world of cryptocurrencies and blockchains you need to know how to deal with a complex system.

Our goal is to simplify this complexity, giving a single access point, which acts as a centralizer of all these services—the Moby Dick Platform or Pequod.

The platform will be managed through WOT, the Mobydick Token.

The advantage?

The fees will be significantly reduced compared to those you currently pay on other platforms.

Pequod will collect in the same place the best opportunities that other services have (such as the best staking APY and most secure crypto currencies to trade)

The main goal of Moby Dick is to create a platform who will simplify and improve trading system, proposing to our users the best opportunities on the BSC Network. The Moby Dick Project and all the services are managed by the “Wolf Of Tuscany Srl” company.

## WHAT IS PEQUOD

Pequod is the first Moby Dick platform project. Through Moby Dick you will be able to access the services of the FT Platform (Fungible Token Platform). This platform will simplify the exchange of FT on Pancakeswap.

Pequod will allow you to exchange your Moby Dick Tokens for FT on the Binance Smart Chain through an integration with Pancakeswap and is going to propose to you the best and more profitable tokens to buy and stake.

Many other features will allow you to have more control over all your operations.

For example the most useful function to use is the Stop Loss and Take profit for every token you have in your wallet.

Furthermore, the platform will allow other coins to integrate in order to provide innovative control and feedback mechanisms.

## MOBY DICK TOKEN

Access to all the services described in the Project as well as its operation will require a token.

That's why we thought about creating our own token—the Moby Dick Token. (WOT)

The Moby Dick Tokens will be used, first of all, to access Pequod, the Moby Dick Platform, in terms of both operation and monthly subscription.

The related advantages are: using Moby Dick Tokens allows Pequod to not bind to the Binance Smart Chain, but it will be able, in the future, to integrate services from others Blockchains, such as Ethereum, Cardano, Tron, Polygon, Polkastar, Ripple.

## TOKENOMICS

The initial distribution of Moby Dick Token will be in the form of an Initial Coin Offering (ICO) through Presale on the website [www.mobydicktoken.net](http://www.mobydicktoken.net)

Then the Moby Dick Tokens will be listed on the exchanges indicated on the Road Map.

Users will be able to obtain Moby Dick Tokens exclusively exchanging it for BNB (IEO), which will then be divided as follows:

- ✓ 30% of the obtained BNB will be added to Pancakeswap to allow users to exit from the project in advance;
- ✓ 60% of the obtained BNB will be managed by the Moby Dick team and made available for exchanges or/and services;
- ✓ 10% will go to support our project.

The Initial Supply of Moby Dick Token (WOT) will be used on the following ways:

- ✓ Presale;
- ✓ Listing on Pancakeswap;
- ✓ Sponsorships:

The Moby Dick Tokens left will stay unused and none of the Moby Dick Token of the Main Wallet of the society will be transferred by the Moby Dick Team.

When and if the project will interact with other blockchains, in order to support further services, the total supply of Moby Dick Token (WOT) will be divided on the various blockchain, to allow the interactions of Pequod - Moby Dick Platform on all blockchains.

The Moby Dick token (WOT) was designed to disengage from the blockchain and the use of Moby Dick Token is exclusively intended for the services presented in this White Paper.

Moby Dick Token is not created to guarantee, promise, or even just give the recipient the expectation of a return of any kind, especially of a financial nature.

However we believe so much in our project that we thought of a system that prevents financial speculation on our token, possibly carried out by anyone who obtains it and in particular by the Pump & Dump groups, active on the BSC.

Total offer:  
10.000.000.000.000  
Previous Burns  $\approx$  1.000.000.000.000  
Expected Burns  $\approx$  6.000.000.000.000

Circulating Supply after Burns  $\approx$  3.000.000.000.000

11% Transaction tax:  
- 2% PancakeSwap Fee  
- 6% Moby Dick platform development  
3% Left Available

## ROAD MAP

Q1

- ✓ Expanding marketing Team and Project
- ✓ Expanding Tech Team
- Pequod public Release
- Swap
- Take Profit & Stop Loss
- Stable coin stake
- Start 1st Level Academy Moby
- Start ADV promotions
- Creation of MobyDick & Pequod
- NFT Collection
- Influencer Partnership
- Start of Global Expansion

Q2

- NFT Artist Scouting & Collaborations
- Direct connection from Pequod to DAOs
- Improvements
- Expansion of Moby Dick services
- Expanding Team
- Trading Academy
- Launch MobyDick Merchadising Store
- Expanding influencer Partnership

## Q3

- International Blockchain Conference
- Copy Trading Binance
- Mobydick Live event
- Improvement of the Pequod Platform, including new design and features
- Planning Mobydick project Updates
- WebRadio project

## Q4

- Mobile App
- CrossChain swap
- Mobydick Website V2
- Blockchain/Crypto Meetups
- Rollout test new Pequod features
- Roadmap 2023

As always, roadmaps are subject to change and may be re-prioritized. However, this is a good reflection of the core initiatives that Wolf of Tuscany will drive throughout 2022.

## DISCLAIMER

1) The Project described in this White Paper and the statements contained in there do not constitute a commitment or a promise, of any nature, and the Moby Dick Team will in no case be liable to anyone if it does not develop the Project and /or does not provide the service described here

2) The Moby Dick Project may and / or must be modified and / or even terminated, also as a result of new disciplines and / or provisions which Wolf of Tuscany Srl and the Moby Dick Team must and / or deem necessary or even only appropriate conform.

3) Moby Dick Token is based on the Binance Smart Chain, with respect to which Wolf of Tuscany Srl has no rights or responsibilities in terms of development and operation. There is a risk that the Moby Dick Tokens may be lost and / or become unusable and / or inaccessible due to situations and events that are uncontrollable and / or independent of the will of Wolf Of Tuscany Srl, including even a possible hacking.

4) Moby Dick Token is a utility token created exclusively to allow those who acquire it to access and use the Pequod - Moby Dick Platform and the services provided by the Moby Dick Project. Moby Dick Token is not intended to be used as an investment. Moby Dick token is not a financial instrument or product, as it does not confer any right to dividends, interest or insure or even only generates or intends to generate even a simple and mere expectation of economic and / or financial return. Moby Dick Token has no particular yield or value outside of the Moby Dick Project. Likewise, the Moby Dick Tokens are not shares and do not give any right to dividends, ownership or management with respect to Wolf of Tuscany Srl and / or in any case with respect to the Moby Dick Project. Ultimately, Moby Dick Tokens must not be used and / or acquired for speculative or investment purposes and / or participation and / or control, in any form, in Wolf of Tuscany Srl and / or in any case with respect to the Moby Dick Project.

5) The Initial Exchange Offer (IEO) of Moby Dick Token and the subsequent listing on third-party platforms are not carried out for speculative purposes, but are necessary and preparatory for the only purpose of allowing users to acquire - in exchange for other tokens already owned - Moby Dick Token through which to access and use Pequod - Moby Dick Platform and the services of the Moby Dick Project. The listing of Moby Dick Token on third-party exchange platforms does not change the legal qualification of the token, which remains a simple means for accessing and using the Pequod - Moby Dick Platform and the services of the Moby Dick Project.

6) Wolf of Tuscany Srl and anyone of the Moby Dick Team is not (to date) a financial intermediary, an exchange or a custodial wallet provider and is not required to obtain any authorization or to comply with anti-money laundering legislation.

Where Wolf of Tuscany Srl should in the future provide services related to the aforementioned activities, it will ensure adequate and appropriate authorizations and compliance. Wolf of Tuscany Srl and anyone of the Moby Dick Team should not be considered a consultant, especially in legal, tax or financial matters. Any information in the White Paper is provided for general information purposes only and Wolf of Tuscany Srl and anyone on the Moby Dick Team does not provide any guarantee as to the accuracy and completeness of this information. Wolf of Tuscany Srl strongly advises each purchaser to carry out a preliminary technical, legal, fiscal and economic analysis relating to the acquisition and subsequent conservation of Moby Dick Token, also based on and in relation to their nationality and place of residence, with their own consultants.

Therefore, anyone who intends to participate and participate in the ICO or even subsequently intends to acquire and acquire the Moby Dick Tokens on third-party exchanges represents and guarantees

1. that he has preliminarily and carefully read, analyzed and understood this White Paper in all its parts and all the constraints, risks, costs and benefits associated with the acquisition of 10 one or more Moby Dick Token and that he accepts the entire content and to be legally bound by/to it

2. to be authorized and to have full powers and capacity to acquire Moby Dick Token under the laws applicable to him and that his acquisition of cryptographic tokens in that jurisdiction is not prohibited, limited or subject to additional conditions of any kind

3. to know and accept the risk that Wolf of Tuscany Srl and / or the Moby Dick Team will not develop the Project and / or deliver the services covered by this White Paper

4. to know and accept that neither Wolf of Tuscany Srl nor anyone of the Moby Dick Team is and / or can be held responsible for any direct or indirect loss and / or damage deriving directly and / or indirectly from any and / or necessary changes and even from the termination of the Project

5. to have a significant and in-depth knowledge and experience of the cryptocurrency system, the blockchain system and related services, as well as to have an exhaustive knowledge of the risks associated with an Initial Exchange Offer, as well as the mechanism relating to the use and storage of tokens and / or cryptocurrencies

6. to know and accept that Wolf of Tuscany Srl and / or the Moby Dick Team is not or will be responsible for any loss of the Moby Dick Token or for any situation that makes it impossible to access / use the Moby Dick Tokens, that can result from any event, including that of a hack

7. to acquire Moby Dick Token exclusively because it wishes to have access to Pequod - Moby

Dick Platform and to all the services provided by the Moby Dick Project

8. that it is not purchasing Moby Dick Token for investment or speculative use

9. that it does not consider or believe that Moby Dick Tokens are financial instruments or products, so it is aware and accepts that any legislation governing instruments or products or activities or services of a financial nature is applicable

10. that he does not consider or believe that the Moby Dick Token grant him rights to dividends, ownership or management with respect to Wolf of Tuscany Srl and / or the Moby Dick Project

11. that does not consider this White Paper, the information contained therein, the Initial Exchange Offer (IEO) of Moby Dick Token and the subsequent listing of Moby Dick Token as an invitation to undertake an investment, of any kind and nature, nor as an offer or invitation to sell / purchase financial instruments or products and / or shares, securities or rights, of any nature and content, with respect to Wolf of Tuscany Srl or any associated company

12. who has carried out (or independently evaluated not to carry out) a preliminary technical, legal, fiscal and economic analysis relating to the acquisition and subsequent conservation of Moby Dick Token, also on the basis and in relation to their nationality and place of residence, with their consultants

13. in any case, it will not acquire Moby Dick Token to carry out illegal activities, Furthermore, whoever acquires Moby Dick Token accepts and undertakes to seek an amicable settlement of any dispute that may arise with Wolf Of Tuscany Srl, prior to any judicial action, including precautionary ones, In any case, any dispute or controversy that emerges as a direct or indirect consequence of the Initial Exchange Offering and / or the acquisition of Moby Dick Token will be resolved by arbitration according to the Rules of the Arbitration Chamber of Milan, by a single arbitrator, appointed in compliance with this Regulation. The seat of the arbitration will be Milan. The arbitrator will judge according to Italian law. Any interested party who is not or does not feel able and in a position to accept and / or understand all of the above should not acquire Moby Dick Token.
